

Summer 2025

# CLIPPINGS

A newsletter prepared especially for our customers, friends & neighbors

## Dealing with Unpredictable Weather

It's been another busy season here at LawnCare by Walter. We started out with a cool, dry spring and then watched the temperature soar as we were trounced with heavy downpours. It's kept things interesting to say the least. Despite the weather, our crews are dedicated to getting your projects done as we continue to juggle our schedule through unpredictable happenstances.

Now's the time to schedule your core aeration and overseeding for the fall. We're also taking appointments for those of you looking for a new outdoor living space in 2026.

This October 2 at 6 p.m., join LCbW, Q98.5 and 96.7 The Eagle for Flannel Jam: Country and Rock Confidential Concert at the Hard Rock Live in Rockford. Proceeds will support the Autism Program at Easterseals and St. Jude Hospital.

LawnCare by Walter

*Remember, we build great lawns from the ground up!*

## Keep Your Lawn Long and Healthy

It's important to adhere to strict mowing guidelines in the summer in order to ensure a lush, healthy lawn free of weeds. This can sometimes be challenging during continual episodes of inclement weather. Here are some crucial mowing tips to keep your lawn in tip top shape.

### Keep the height high

Your mowing height should be at least 3 inches high. This will help eliminate weeds.

### Sharpen those blades

Sharp blades will cut grass cleanly. Disease can sometimes creep into sheared strands caused by dull blades.

### Mow often, skip bagging

Grass clippings readily decompose and don't cause thatch. They also recycle nutrients including nitrogen.

# SAVE the DATE

**This year's open house will take place September 17, 2025, from 4:00 to 7:00 p.m.**

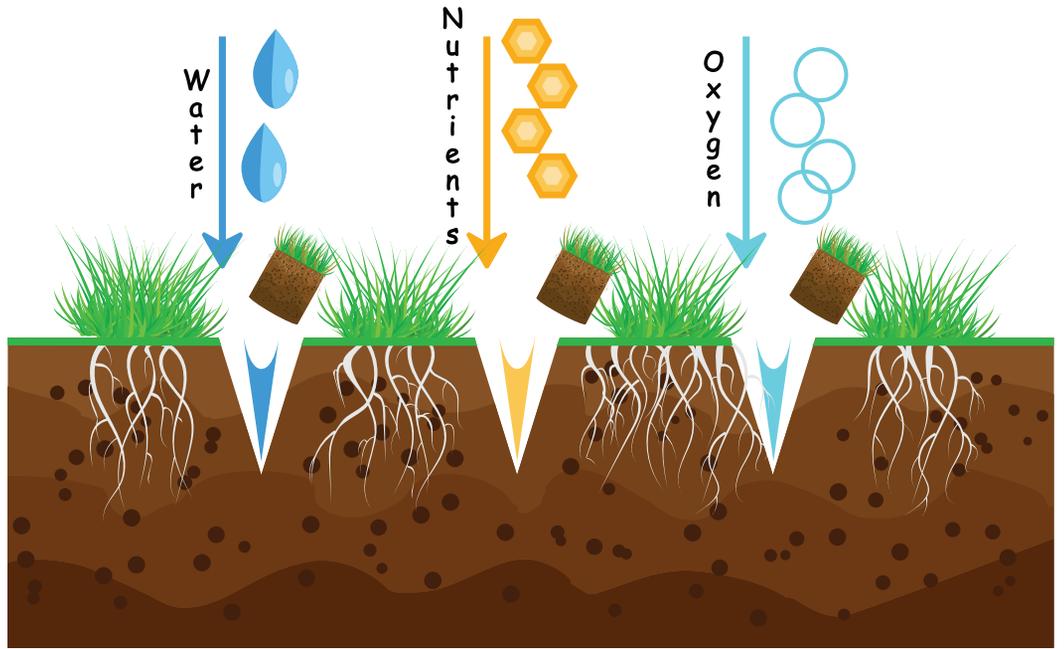

Be sure to bring your appetite for food and drinks. As always, there'll be surprise giveaways. Our team at LawnCare by Walter looks forward to meeting you!

# Core Aeration & Overseeding

Fall means it's time for core aeration and overseeding!

Book your appointment now to ensure a great looking lawn next spring!
